

KAMILA BURZYNSKA

Journey to Web Development

I decided to transition from a medical profession to web development in November 2019. Skills are best learned through experience and examples so I decided to create the following projects

- Movie portal - <http://movie.kamilaburzynska.com/>
 - Lets you select a random movie from the database
 - Displays movies by genres and shows the movie description and other interesting details
 - User registration / login
 - Ability to add movies to favorites and later see the list
 - Using React.js / Redux / Node.js / PostgreSQL

Experience

Medivet. (full time / London)

June 2018 - February 2020

- Working directly with clients, very often under pressure, developing crisis management skills.
- Performing surgeries and looking after animal hospitalization both as a member of the team and as a team leader.
- Managing backlog of clients and logistics of consultations.
- Taking feedback from senior vets and constantly working on improving my skills through personal development programme.

Lviv Vet University student exchange. (internship / Ukraine)

July 2016

- Learning the dynamics and overall workings of a big animal farm.
- Performing routine surgeries and taking advice from senior members of staff.

Horse and cattle ranch in Janow Podlaski. (internship / Poland)

July 2013

- Observing senior members of staff conducting routine procedures like taking deliveries, ultrasound, bandaging wounded legs.
- Preparing horses for competitions.

Skills and Abilities

Front-end

- React.js and Redux
- semantic HTML5
- CSS3
- JavaScript
- browser DOM API
- Bootstrap
- consuming RESTful API

Back-end

- Node.js
- SQL in particular PostgreSQL
- various APIs for example Clarifai face recognition API, Spoonacular food API
- Firebase

Other

- git, npm

- Visual Studio Code, Sublime text

Education

Wroclaw University of Environmental and Life Science, Poland (in progress)

- Faculty of Veterinary Medicine, begin: **Oct 2012**, estimated finish: **Feb 2018** diploma in April
- Full address:
 - Street: C.K. Norwida 31
 - Postcode: 50-375
 - City: Wroclaw, Poland
- The University holds **EAEVE certificate of approval**
- website: <http://www.wet.up.wroc.pl/en/>

XXI LO (High School), Poland, Lodz

- Final exams results (all advanced level)
- - Biology: 82%
 - Chemistry: 83%

Other

- Drivers license
